Nothing Gold Can Stay

by Robert Frost

Nature's first green is gold,
Her hardest hue to hold.
Her early leaf's a flower;
But only so an hour.
Then leaf subsides to leaf
So Eden sank to grief,
So dawn goes down to day.
Nothing gold can stay.

Faculty and Staff

Administration

Dr. Ken Hartley

This is Dr. Hartley's 3rd year at PCHS, and his first serving as our Principal. He is very supportive of the students and the teachers, and his good-natured disposition is contagious. We count on every day beginning with, "Good Morning, Trojan Nation!"

Mr. Stephen Boyd

Mr. Boyd is our newest Assistant Principal. This is his 15th year in Education. Before becoming an administrator he taught history and coached for 13 years. If he weren't an AP he would still be on active duty in the Army. We thank him for his service overseas as well as here at PCHS.

Mr. Jason Flanders

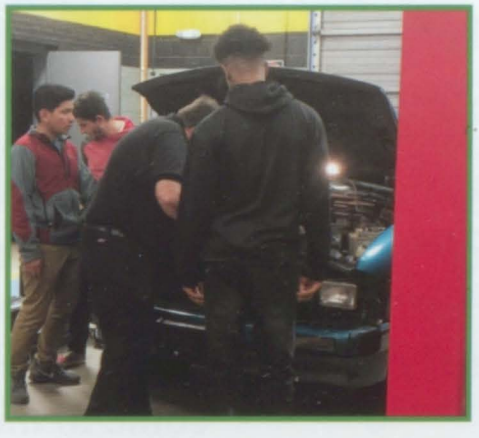
This is the 6th year that Mr. Flanders has been Assistant Principal. Seniors often get to know him way too well! Thank goodness he deals with skipping and tardies in a calm, cool, and collected manner!

Mr. Rodney Hester

Mr. Hester has held many positions over the course of his 24 year career: principal, football coach, athletic director. These days he is busy keeping the freshmen in line, but if he weren't in education, he would be a chef.

Teacher of the Year

Mr. Johnny Rickerson, who has been a member of the Trojan family for three decades, is the PCHS Teacher of the Year. He loves to work with the students and share his skills with those who want to have a future in the automotive industry. "Mr. Rick" has been a Skills USA Advisor, the leader of the Hot Rodders of Tomorrow, and Ford/AAA. He is extremely proud to be a part of the Trojan family, as well as a leader to other automotive teachers in Central Georgia. He is a great role model and an amazing teacher. Our school would not be the same without him as the automotive instructor.



Yearbook Dedication

Ms. Pam Bouyer is a Trojan through and through. Not only is she a 1989 graduate of Peach County High School, but she has also been employed at the school for 23 years. She remarked, "I care deeply about all the students here. I try to learn everybody's name because I feel like it makes the students feel important." She is a second mother to a lot of the student body, and has been known to call a mama or two when she sees a student doing something she knows will end up turning out badly. She also commented that after so many years working in the same job, the staff feels like family. The Color Guard is another part of what keeps her here and makes her such a big influence in the lives of the students. She has been with the band and flag girls since she began working here and has assisted Mr. Lindsey, Mr. Clark, and Mr. Johnson. Ms Pam's motto is simply to try "to be a blessing to someone, be a friend to someone, encourage someone and take time to care for someone." And that is exactly why she makes sure everyone is cared for when they come to the main office.

We love you Ms. Pam!

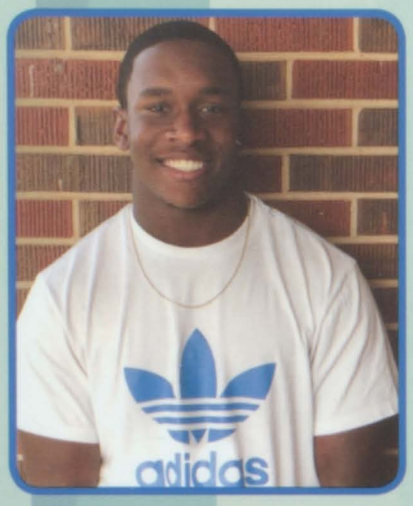
STAR Student and Teacher

Isaac shows off his college of choice as Dr. Hartley extends his congrats.

STAR Student and STAR Teacher Isaac Choi and Ms. Lycett

Each year, the STAR student is selected based on the highest score on the College Board's SAT results through the November testing session. The student must also be in the top ten percent of the graduating class. This year's recipient of the award is none other than Isaac Choi. Isaac is currently finishing his Associate's degree in Natural Science from Middle Georgia State University. In the fall he will attend Johns Hopkins University in Baltimore, Maryland, where he will pursue a degree in Chemistry. Isaac chose Ms. Erin Lycett as his STAR Teacher because of her passion for teaching. He also noted, "her class was the only one where I had to write a 20+ page, handwritten book every weekend. She's a great person who really pushed me to do my best." Both of these individuals deserve the recognition for their accomplishments. Congratulations!

Golden Eagle Nominees



Ethan Manns
Athletics

The Golden Eagle Awards are sponsored by The Macon Telegraph each year and honor the best and brightest students in twelve categories. Judges from various area organizations and institutions evaluate students on their academic achievements as well as their community involvement. This year's nominees in five categories are excellent representatives of both our school and their respective categories.

Once in a lifetime...

...on August 21, 2017, the moon moved between the sun and the Earth, blocking the light of the sun. The moon cast a shadow on the Earth, and while some parts of the state experienced a total solar eclipse, students and faculty at PCHS viewed a partial eclipse. The school purchased solar eclipse glasses for everyone and we went outside to see what it was all about. Even though our part of the country wasn't in the path of totality, we felt a bit of darkness in the middle of the day.

Don't look directly at the sun! These sky pics were taken through a filter or by using the eclipse glasses!

Students in Ms. Huff's class enjoy the eclipse from a comfortable spot.

Each year teachers select ten males and ten females who are the best all-around in the senior class. Selections are based on the areas of academics, athletics, involvement in clubs and extracurricular activities, as well as commendable behavior. These students serve as excellent role models for the underclassmen.

Freshmen say....

I came here with the mind set of an 8th grader, but that quickly changed. As you become a ninth grader you realize high school is difficult and it's easy to fall behind. You have to keep up. You must study or you will fail, and it's up to you to keep a good grade. The teachers stop treating you like kids, giving chance after chance. Not in high school - you're on your own. Also friends don't help your grade.

- Kaylie Slaton

My advice? Don't expect anything. Don't rely on anyone but yourself. Do's? Be a good student. If you were a troublemaker in middle school, now is your chance. Don'ts? Don't give yourself a bad image. Don't make stupid mistakes you know you'll regret; they'll follow you throughout high school.

-Kailyn Ugarte

What advice would you give to upcoming freshmen on the Do's and Dont's of starting high school?

Focus mostly on your grades because this grade in high school is where your reputation begins.

- Yasmin Phillips

Do's: Study, Always stay on task, have fun, but also be serious at the right time, get all your work done on time.
Don'ts: Slack off, horseplay, sleep during class, disrupt students/ teachers, don't get into fights.
Just focus on you!
p.s. Don't let sports interfere with your school work. GRADES COME FIRST!

- Michaila Ervin

Pay attention and focus in class. It is important to do your best. Be mature. Ask for help if needed. Don't cut up in class; high school is not a joke. Try to come EVERY day- it is worth it.

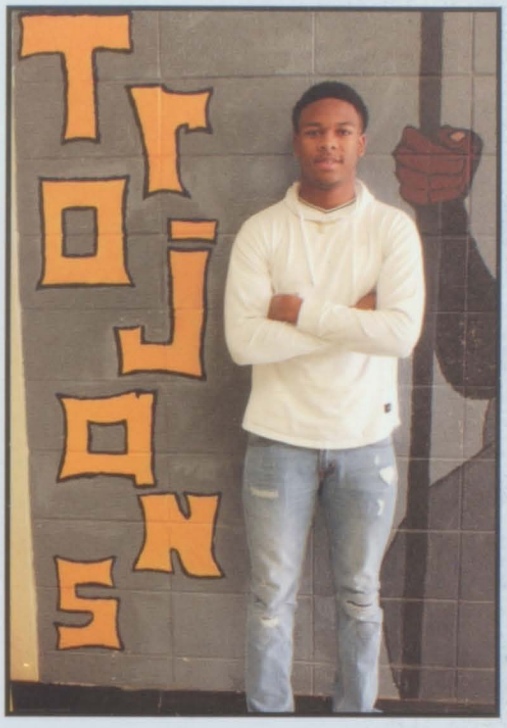
REGION CHAMPS!

Outstanding Students of Peach County High School...

PCHS has a representative on the Georgia High School Association (GHSA) Student-Athlete Advisory Council! Justin Harris is one of 24 students in the state selected to serve as an ambassador on the board, which discusses athletic issues the students feel should be addressed by the GHSA Board Members. Some of the issues suggested by the students were having an athletic trainer for every high school and allowing the use of instant replay for games. Coach Campbell selected Justin because "he is respectful and just an all-around good kid." Justin is pleased to be a part of this council because of the fellowship with his peers and the bonds they have made with one another, the social skills he is developing, and the leadership experience it is giving him in preparation for college and beyond.



Daisha Almond, a PCHS basketball player, has committed to Southern Mississippi. Almond suffered from an injury in July, which could have jeopardized her future basketball career. However, the support of her family, friends, and teammates inspired her to continue playing. When asked how the injury affected her, and how she overcame the effects of the injury Almond said, "At first I was thinking it was the end of the world. I'm not going to be able to finish my career, or no one's going to want to keep looking at me, but Southern Miss. came through." Although Almond received many offers from colleges such as Jacksonville, Jacksonville State, Mercer, Western Kentucky, and a few more, she decided to commit to Southern Mississippi. When asked about her reasoning for this decision Almond said, "I just felt like they're a great fit for me. They're going to take care of me, make sure I'm always okay, no matter how far away from home I am."

Foreign Exchange Students

Insaf Ryachi s a 16 year-old from Morocco. She said that the best part of being at PCHS is, "I've made many new friends." She also said the best part of being in America is, "This country is beautiful." She wanted to come to America to learn how to be more independent. Her family is what she misses the most, and when she returns home she will miss friends and her host family the most.

Jose Yanez is a 16 year-old from Ecuador. The best part of being at PCHS is we only have four classes per semester. The best part of being in America is that we use cars to get everywhere. He came to school in America because he wanted to get to know the culture. Parties and friends are what he misses the most about home. And when he leaves he will miss his new friends like Lennart and Abigale.

Lennart Hartmann is a 17 year-old from Berlin, Germany. The school spirit has been the best part of being at PCHS. One thing he likes about America is free refills. In Germany you have to pay for all refills, even water. He also says organized sports (he likes basketball) are much better. What he misses most about home is his friends. And when he goes back home, he will miss all of the friends he made and the people he met.

Kaneez Mirjat is a 15 year-old from Pakistan. In her opinion, Homecoming has been the best part of being at PCHS. The best part of being in America has been Thanksgiving! She stated that it's a really big deal to come to America. "It's the farthest I've ever been from my country." What she misses the most about home is its famous food. When asked what she will miss most about America, she said "everything!"

The students show the flags and traditional dress of their countries.

Tamisha Avant - I remember when I first started 9th grade. I was nervous when I got to school and I was wondering who was going to be in my class. So I went to my math class and that's when I met my friend, Jalynn Hamm, who is still my friend. Ever since then we've been super close.

Seth Blando- I remember when if felt like it was going to be a bad day, but it turned into one of the best I ever had.
